

Hartalega Coats Nitrile Gloves

Colloidal Oatmeal Coated Nitrile Exam Gloves COATS® (an acronym for Colloidal Oatmeal System) is a patented and unique nitrile glove technology. COATS® utilizes the powerful benefits of all-natural oats, an FDA-recognised skin protectant, as a coating that forms a natural, moisturizing barrier between the glove and skin. This acts as a preventative measure against skin irritation and eliminates uncomfortable and irritating conditions experienced when wearing normal gloves. Users who suffer from dry and itchy skin due to frequent hand washing and glove usage can now rely on COATS® to soothe and nurture the skin and protect their hands while they work.

Regulatory Compliance

FDA 510(k), MDD 93/42/EEC, REACH, ROHS Directive 2002/95/EC, EC 10/2011, EC 1935/2004, PPE 89/686/EEC

Standards

ASTM D6319, ASTM 6978, EN455 part 1, 2, 3 & 4, EN 1186, EN 13130, CEN/TS 14234, EN 420, EN 374 part 1, 2 & 3

Classification

Class I (FDA), Class I (MDD 93/42/EEC), Category 3 (BfR XXI), Category III (PPE 89/686/EEC)

Patent

7,691,436; 7,718,240; 7,740,622; 8,075,965; 8,458,818

Application Settings

Low risk - medical, dental, procedures, chemotherapy drugs, pathology lab and food handling. Coated with FDA recognised skin protectant. Clinically proven to help protect and moisturise your skin from dry and irritated skin from prolonged glove use and hand wash.

Colour
